

# Case Study

Explore our case studies to see how we've delivered innovative, secure, and reliable solutions across diverse projects worldwide, helping clients overcome complex challenges and achieve lasting success.

## Client

Martinus Rail

### Client Challenge

- Large-scale rail infrastructure project (AP2) spanning 355 km with remote sections, requiring robust security
- Compliance with RSNL and WHS laws for safety, and protection against unauthorized access and theft

### Integrated Solution

- Developed a Security Management Plan covering access control, risk assessment, and incident management
- Conducted security risk assessments and set up regular audits for compliance and effectiveness
- Stage 2 included mobile patrols, roaming guards, and electronic security systems (CCTV) for comprehensive on-site protection

### Business Value Delivered

- Ensured safety and regulatory compliance, reducing risk of incidents and unauthorized access
- Enhanced operational continuity by securing assets and minimizing potential disruptions
- Protected community and project team through proactive, adaptable security measures
